LED Indicators:

- GREEN: Fully charged
- RED: Charging
- RED Flashing: Battery Faulty
- NO LIGHT: Battery improperly inserted

Charge up to 8 Headset batteries

Charge up to 2 Com-Center batteries

Battery Facts

- COMSTAR high capacity Lithium batteries provide up to 10 hours of operation.
- Lithium batteries do not develop a memory, so do not need to be drained after use.

Important Tips

Microphone Placement

- COMSTAR headsets include a special noise cancelling microphone. For optimum performance place directly in front of, and approximately 1 - 2" from the user's mouth.

Com-Center Placement

- Line of sight: for optimum range, position the Com-Center so that the radio signals have a clear path to the wireless headset/radios.

Storage

- Lithium batteries should be at least partially charged when stored for long periods.

Caution

Compartment on bottom of Com-Center houses switches for factory programming. Call Eartec for more information: 1-800-399-5994.
